PREFACE

Assalamu'alaikum Wr. wb

Praise be to Allah SWT who always gives His grace to all of us, so that we can publish the Proceedings of the International Conference on Health and Midwifery as an effort to improve the Tri Dharma of Higher Education.

This proceedings are proceedings published by AKBID Wijaya Husada as a means to present the development of science and technology in the field of health services. In the process, of course, there are not a few obstacles, but with the help of various parties who never stop they can be overcome.

This proceeding can be used by Lecturers, as well as other Health Students who are interested in health issues. We hope that the publication of this proceeding can be a forum for various knowledges for lecturers and students. And with the presence of this proceeding, it further triggers the growth & development of a scientific writing culture and enthusiasm for work among us.

Happy reading & hopefully useful

Wassalamualaikum warahmatullahi wabarakatuh
